How to change the default language of an Internet browser

By default, the Internet browser language is regional; wherever you are in the world, your browser displays the language that is predominantly spoken there. However, some individuals speak languages in addition to their native tongue and prefer one over the other. To change the default language displayed in an Internet browser, make a selection from the list below and follow the instructions.

**Google Chrome**
Mozilla Firefox
Microsoft Edge

Google Chrome

1. Open the Google Chrome browser.

2. In the upper-right corner of the window, click the Menu icon in Google Chrome.

3. Select Settings in the drop-down menu that appears.

4. On the Settings window, in the left navigation menu, click the Advanced option.

5. Click Languages in the Advanced sub-menu.

6. On the right side of the Settings window, click the Language option.
